

Dept Health mtg (cont)

Bill Ryan: EPA Project site manager

Cascade Natural Gas owned facility
last 15-20 years.

#1 concern at outreach meeting: drinking
water

Tribe has right to harvest shellfish,
Channel has been closed to shellfish
harvesting for decades due to CSOs.

Clearly, area inhabited by transients,
Are they eating shellfish? Go to the beach?

Rhonda will produce a report.

Andrea: industrial uses going on at site
right now.

Sesko property is undeveloped but provides
beach access

* Set up mtg w/ Bill Ryan

Mt3 Health Dept Staff Gasworks Ark

Rhonda/~~Rhonda~~ Erin

Erin → funded position to work
on behalf of the Federal Govt

Andrea from Shoreline before

ATSDR funds these positions,
sister agency to CDC.

Rhonda's/Erin's role is specifically about
Public Health

Pennsylvania/Plaza

Agency of Toxic Substances and Disease Registry

Erin: 7 sessions at Olympic College,
Total of 13 people showed,
Posters in the neighborhood better than a
newspaper ad

Report is currently under revision,
might not be out until next year - 6/10/05

Grant Helcott from Health Dept was
also there,

5100 addresses put together by Erin

New signs going up. To be approved
by Grant,

3 reports will be issued
- initial; outlines who may be exposed

Rhonda: should be "No Beach Access" sign
As a superfund site, fences will be put up.
- EPA responsible for community info

Erin/Rhonda willing to come to neighborhood mts

2nd report; out for public comment
and after GBA data is final - could
be 7 years.

3rd report is final report, after
30 day public comment

Each report has a recommendation and
action section.

Immediate Health threat; old landfill
on Sedko property

Remedial Investigation / Feasibility Study

- * Erin; GIS files we have could be useful
- * Next steps; meeting w/ Bill
 - Also, going to work w/ Crown Hill Elementary
 - Suggesting contacts; Rich Brooks and Alison
 - Rich's concern; exposure rates
(higher cancer?)
 - Rhonda; feel free to call
